While there was no fight in the conven-tion proper there was a battle royal in the meeting of the Committee on Resolutions. Friends of William J. Bryan from the Sec-ond District were very much in earnest in favor of the insertion in the platform of a plank indorsing him and the Kamsas City platform. The majority of the committee was against any such indorsement, saying that they considered it out of place at the present time to inject Mr. Bryan's name in-to the State campaign.

Platform Unantmously Adopted. Pintform Unanimously Adopted.

The convention was called to order by W. H. O'Brien, vice chairman of the State Central Committee. The report of the Committee on Rules and Perminent Organization recommended that John W. Kern of Indianapolis be made permanent chairman, Mr. Kern made a brief but earnest speech. Chairman F. B. Shively of South Bend then rend the platform which was adopted unanimously and with much enthusiasm. enthusiasm.

enthusiasm.

A resolution was adopted recommending Thomas Taggart for chairman of the Democratic National Committee.

The platform says:

"We denounce the Republican party for its surrender to and alliance with the trusts and we favor such action as will suppress and destroy all trusts or combinations to control the production and the price of commodities.

Tariff and Trusts Denounced.

the Government honestly and economically administered.

"We condemn the Republican party for refusing to give the Interstate Commerce Commission power to enforce its decisions against discriminations in railroad rates, which discriminations have been a potent cause of the creation and maintenance or trusts and we demand that the commission be given power to suppress this evil."

Continuing the platform favors the restoration and expansion of the American merchant marine and to this end demands the reformation of navigation and fariff laws: denounces the singulation from Indiana, as an inquitous appropriation of public funds for private purposes, and a wasteful, illogical and useless attempt to overcome by subsidy the obstructions raised by Republican legislation to the growth and development of American commerce on the seas. Opposes the Fowler bank bill, which proposes bank concentration and the formation of a great banking trust, recognizes as an economic fact the increase of standard money arising from the vast increased production of gold from American and foreign mines as a demonstration of the truth of the cuantilive heory of money.

We hold in reverence and valor, patriot-m, and services of the soldlers and sallors of the Republic."

Congratulations for Cuba.

Congratulations for Cubs.

The platform further congratulates the Republic of Cubs upon its entering into the family of nations, and deplores the cruel and wanton destruction of the Republics of South Africa; favors the construction and control of an isthmian canal; favors the election of United States Senators by popular vote; favors freedom of debate in the legislative bodies of the State, and deplores the death of President McKiniey; denounces anarchy in all its forms, and declares that it shall not be permitted to find an abiding place in this country; indorses the course of the Democratic representatives in Congress in standing for conomy in public expenditures, for just principles of government and of the doctrines of the Democratic party.

The platform ends by condemning the

ment and of the doctrines of the Democration party.

The pintform ends by condemning the Governor of Indiana "for his violation of the Constitution and laws of the United States and the State of Indiana, in his refusal to honor the requisition of the Governor of Kentucky upon regularly returned indictments for murder against fuglitives from justice."

Allan was released upon condition that he should go to the City Hall at once and secure a permit. At the Mayor's office he was informed that his dress did not constitute a violation of the law. He was told, however, that he would not be permitted to attract crowds in public places.

When asked about his history, Allan de-clined to reply, and since no formal charge had been preferred, the questions were not pressed. He gave the name of John Alian, and said he desired to remain a "man of mystery." He stated that he came to the city two weeks ago and is rooming at No. 242 Washington avenue. Whence he came and whither he is bound were points upon which he remained silent. In reference to his mission, however, he had much to say.

Later in the aftermon, at the park entrance at Eleventh and North Market streets, Alian attracted a crowd composed principally of school children, who gazed at him curiously. The seats which are customarily filled with old men and idlers soon gave up their occupants, and, swarming pressed. He gave the name of John Allan,

"I employ the same methods the Savior did," he answered, turning a pair of steel grey eyes upon the speaker. His expression was that of an enthusiast, dreamer, idealist. "My gifts come from God, through my having complied with the conditions of meditation, study, fasting, and prayer," he continued.

the sufferer. It was a matter of exercising the proper amount of hope and faith. "Some may be cured at once, while others require more time. And if a man have no faith I cannot cure him at all."

In reply to further questions Allan said he had no consultation rooms at present, but hoped to find persons who would fit him up. He also said he would not ask for nor accept compensation, though he might "take something in trust for the uplifting of suffering humanity." bers, who have been rather silent, stated their views.

A majority of the committee appears to be against the Meramec pian, but a mapority is likewise not particularly friendly to any other specific method for obtaining clear water. Several committeemen seem to favor a system for settling water, while filtration also has exponents, but suggestions that the source of supply be changed are no longer entertained seriously.

Committeemen Whyte, Flad and Varrelmann are exposed to the plan for taking water from the Meramec Spring and river. The impression was that freeddent Phillips, who is also a member of the committee, was more or less inclined to the Meramec plan, as distinguished from what is known as the "Meramec scheme," but it is said the declared vesterday that the plan is now out of the way.

It is waterd in the City Hell that Mr. he declared yesterday that the plan is now out of the way.

It is suated in the City Hall that Mr. Phillips would like to have a system adopted for settling the water and clarifying it with a conjugant when necessary. Though Mr. Whyte, who is new to the board as yet, is not committed to any method for obtaining clear water, at present he is interested in arrangements that have been made for tests at settling the water. However, he is open to argument. Mr. Flad favors filtration. The board is divided on the clear-water proposition and the members are awaiting results of tests and inspections before reaching definite conclusions.

Nervous?

Easily discouraged? Things look dark? Can't sleep well? Restless and worn out? "Nervous exhaustion," your doctor says. Ask him if he knows of a better nerve-tonic than Ayer's Sarsaparilla. Sixty years of success.

One great cause of nervousness is constipation. Impurities that should be removed from the system are absorbed into it. One of Ayer's Pills each night, just one, will keep the liver and bowels in a healthy condition. 25 cents. J. C. AYER CO., Lowell, Mass.
